

PokerStrategy.com Elephant Release Notes

Release Information

Version: 0.85

Release date: 29/06/2010

Introduction

This document contains the release notes for PokerStrategy.com Elephant. The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation.

This is a major release with many new features. Users of previous releases should check the "Version Compatibility" section below for instructions on how to use existing data with this new release.

What's New?

- Fixed Full Tilt Poker 6max HUD issues

Installation and Upgrade Notes

First Time Installation

Please refer to the setup guide for details.

Update Installation

You have to uninstall your PokerStrategy.com Elephant version completely if it is version 0.69 or older. Please backup your data prior to uninstall. Newer versions will be updated automatically.
